EURIDICE
European Inclusive Education for Digital Society, Social Innovation and Global Citizenship

Co-funded by the European Union

CERTIFICATE

OF COMPLETION

THIS IS TO CERTIFY THAT

Nataliia Mirko

has successfully completed the micro-credential course

"SMART ECONOMY: DIGITALISATION AND ARTIFICIAL INTELLIGENCE IN SUSTAINABLE BUSINESS PROCESS MANAGEMENT"

Learning outcomes and competences

Upon successful completion of the micro-credential, the participant has demonstrated the ability to:

- *explain the role of management digitalisation and artificial intelligence in the transformation of business processes, as well as analyse the economic opportunities and limitations of AI application in organisational activities;*
- *apply digital tools and AI-based solutions for the automation of managerial processes, analytical data processing, and decision-making support in financial and operational activities;*
- *use predictive analytics and algorithmic approaches to forecast financial and operational indicators, model managerial situations, and justify alternative management decisions;*
- *evaluate the economic effectiveness of implementing AI solutions, determine the ROI of digitalisation initiatives, and analyse the risks and ethical aspects of artificial intelligence in management;*
- *develop and present well-grounded digital management solutions, work effectively in teams, and justify economic conclusions in the context of the Smart Economy and sustainable development.*
